EDUCATION

California Polytechnic State University, San Luis Obispo

B.S. in Computer Science | GPA: 3.5/4.0

Expected May 2027

San Luis Obispo, California

EXPERIENCE

Software Engineering Intern

Jan 2026 – Present

Cal Poly Bailey College of Science and Mathematics

San Luis Obispo, California

- Built a TypeScript media system with SharePoint and Power Automate so staff can quickly find and organize photos across OneDrive.
- Improved and maintained the system from staff feedback, using Codex to test changes and keep the system easy to use.
- Updated college websites using HTML and Drupal so departments can keep content accurate and current.

Undergraduate Researcher

Aug 2026 – Present

Cal Poly Department of Computer Science and Software Engineering

San Luis Obispo, California

- Built a Python backend for Overcooked-AI so researchers can repeat experiments and compare results fairly.
- Added GitHub Actions CI/CD to automatically test code before experiment results are used.
- Used Git and AI developer tools to build, debug, test, and document the research system.

Technology Solutions Research Intern

Jul 2025 – Mar 2026

Foundation for California Community Colleges

Los Angeles, California

- Analyzed financial aid and student data to identify barriers to FAFSA access and show where students needed support.

AI Document Insights Extern

Feb 2025 – Apr 2025

Extern

Los Angeles, California

- Built a Python RAG pipeline with Gemini API so users could ask questions about mortgage documents and get answers based on the source files.

PROJECTS

Guppty Programming Language | Project Site

Rust

- Built a programming language in Rust with a compiler and interpreter, using GitHub Actions CI/CD to automatically test changes.

Gitex | Live App

TypeScript, React, JavaScript

- Built a TypeScript and React codebase Q&A app with Gemini API, while CI/CD and Sentry catch issues before and after release.

SKILLS

Languages: Python, TypeScript, JavaScript, Rust, Java, C++, SQL, HTML/CSS

Frameworks: React, Next.js, Node.js, FastAPI

Tools: Git, GitHub Actions, Docker, Sentry, Power Automate

AI & Developer Tools: Cursor, Codex, Antigravity, Claude Code, GitHub Copilot, Gemini, LlamaIndex, RAG
